A VoIP call using Intelliverse callEverywhere with New Edge Networks

**Intelliverse is Directly Connected into New Edge's Private Network**

## Benefits to Your Customers:

- Use one Voice Service for all locations while leveraging existing investments in phone systems & infrastructure.
- Connect your main office to remote offices & home-based workers
- Reduce monthly data and voice communications costs
- Variable price plans such as measured calling, flat rate local & unlimited LD plans.

## Integrated Broadband & Voice Services

- Data and voice traffic will NOT travel over the public internet
- Nationwide Coverage – available in 98% of US offices
- Highest security with private network, delivering full QoS and best call quality.

## Product

Intelliverse's COMPLETEcall products have been designed to give small businesses the professional edge needed to level the playing field and compete in a big business world.

### SIP Trunking

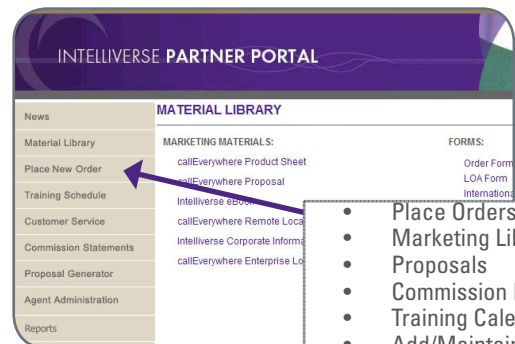

- » Reduce local & LD costs and keep existing phone system
- » Nationwide coverage (one provider across the country)

### Hosted IP PBX

All of the features of a big business phone system – except:

- » No equipment to buy, install, or maintain
- » Features work between all offices and employees regardless of geographical location

## Partner Portal
